Rate Sheet & Services

CAD modeling, drafting, and product design and prototyping for non-regulated mechanical and electromechanical products, plus embedded firmware and electronics development.

Standard rate: $120/hr

SERVICES

Service	Price	What you get
1. Design Review	$1,200 fixed	Review of a concept, CAD, schematic, or firmware. Short written report with risks and recommendations, plus one call.
2. CAD & Drawing Package	From $1,800	Model a part or small assembly from sketches, a physical sample, or legacy drawings. Delivered as native CAD, STEP, and production-ready drawings. Quoted by part count.
3. Prototype Sprint	Approx. $6,000–$9,600 (50–80 hrs)	Concept to working prototype across mechanical, electronics, and firmware. Billed by milestone.
4. Ongoing Support	$2,400/month	20 reserved hours per month (unused hours expire monthly); additional hours at $120/hr. Limited availability.

TERMS SUMMARY

- **New clients:** 10-hour minimum ($1,200) with a 50% deposit.
- **Repeat clients:** 2-hour minimum, billed in 15-minute increments.
- **Larger hourly work:** Estimated in advance with a not-to-exceed cap.
- **Invoices:** Issued biweekly or at milestones; due net 15.

SCOPE

Scope limitation: All work excludes safety-critical or regulated design. The client is responsible for any required professional engineering review, certification, or regulatory compliance.
